

Diagram illustrating the structure of a DNA double helix. The top strand is labeled 5' and the bottom strand is labeled 3'. The bases are color-coded: G (green), C (blue), U (red), and A (orange). The sequence of the top strand is G-C-G-G-G-G-U and the sequence of the bottom strand is C-G-C-C-U-C-A. The bases are connected by hydrogen bonds, forming the double helix structure.
